

## AW 729 - Spécifications techniques

### Description

L'AW 729 est un pneu agricole spécialement conçu pour le transport, la récolte du foin, le bottelage et le travail des sols. Son épaulement arrondi et la conception de sa bande de roulement à trois rainures centrales assurent un faible compactage du sol et évitent les dégâts causés au champ. L'AW 729 est le pneu idéal pour l'agriculture moderne. Il est adapté pour une utilisation aussi bien sur route que hors route.
